

Celebrating Ag Literacy

Inspiring The Next Generation

Join California Foundation for Agriculture in the Classroom as we celebrate ag literacy! This special event brings together educators, donors, industry leaders, and legislators to celebrate the tremendous effort to increase awareness and understanding of agriculture.

Proceeds from our Celebration of Ag events will fund resources and curriculum designed to help students understand the importance of farming, the complexities of modern agriculture, and the connections between ag and our everyday life.

Your support means:

- PreK through 12th grade students will continue to benefit from educational experiences that enhance their understanding of the importance of agriculture in their lives.
- Student teamwork and critical thinking will flourish with projects and activities highlighting real-world agricultural problems and opportunities.
- Educators will ignite passion in their students for all aspects of agriculture, including career opportunities, global and local impact, health and nutrition, conservation and management practices, and food security.

IRS Tax ID number is 68-0100601

2026
