

On The Farm

STEM[®]

Colorado Beef Council
Colorado Agriculture in the Classroom

In-person experiential learning event held
September 14, 2024 in Fort Collins, CO
with a pre-event Zoom webinar

*A professional development course addressing
the topic of beef production and climate change.*

Science through the Lens of Agriculture

The On The Farm STEM program brings together individuals and teams of educators with experts in science education and agricultural science to envision a model for science learning that will inspire today's students, our next generation of scientists and citizens, to take action and feel empowered to use agriculture to improve society.

What to Expect

- Hands-on experiential learning with experts in agricultural science and beef production during the **one-day, in-the-field experience** located at CSU ARDEC in Fort Collins, CO on September 14, 2024
- **One pre-event Zoom** webinar to set the framework for the in-person event to be held at a mutually convenient time in the days leading up to the in-person event
- Collaboration and community with a diverse cohort of **15 science educators** from across Colorado
- Tools, resources, and inspiration for classroom implementation - All participants will **receive ready-to-use kits** of science lessons
- **Guidance and support** from a team of science and agricultural education facilitators
- Up to **0.5 Continuing Education Unit credits** (8 clock hours)

Participant Eligibility

- Targeted towards to **middle and high school** teachers
- **Individuals and teams** of teachers are welcome
- Open to **science** educators, STEM education leaders, Non-traditional educators, **Agriculture** education teachers

Free Event

- This is a **FREE event**, thanks to the sponsorship from the Colorado Beef Council
- **Lunch, snacks, and water** will be provided for in-person event

Sound interesting? Apply today!

- This course is limited to 15 educators and will be filled on a first come, first served basis.
