

Corn

Byproducts

Kansas Foundation
for **AGRICULTURE**
IN THE CLASSROOM

Corn always has an even number of rows on each cob!

Popcorn

Snack made directly from corn kernels.

Plastic

Can be turned into biodegradable plastics used for cups and plates.

Animal Feed

Used as energy source in animal feed.

Batteries

Corn-derived materials are sometimes used to make components of batteries.

Car Tires

Oil is used to make brighter and smoother, eco-friendly crayons.

Fuel

Corn is turned into ethanol, a renewable fuel that powers vehicles.
