

Seed

Sunflower seeds are usually black
with white stripes

Sprouts

Sunflower
seeds need
water, soil, and
warmth from
the sun to begin
growing.

Growth

Sunflowers grow a very tall stem and leaves.

Flower

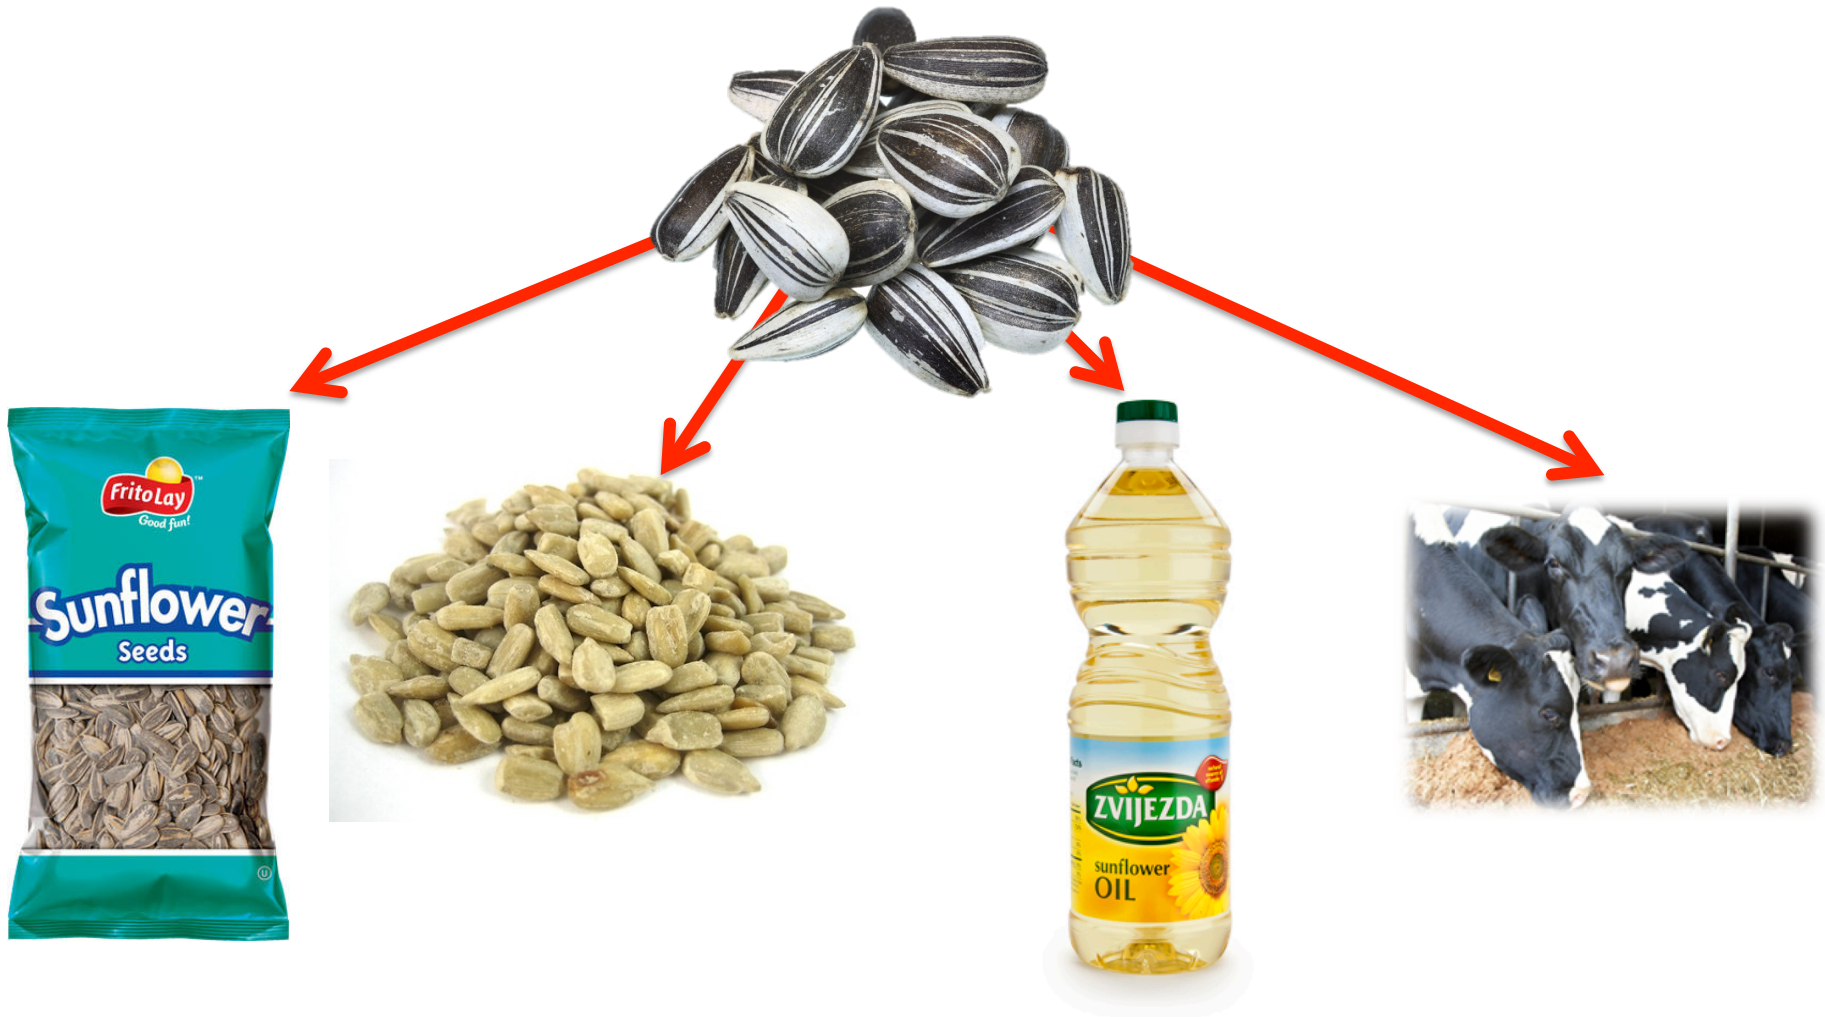

The head of the flower can be
15" in diameter or more!

Wilting

The petals
fall off and
the weight of
the seeds
make the
flower droop.

Seeds

The seeds are harvested.
