

# Stone Age Hunter-Gatherers

Before you read about Stone Age hunters and gatherers, use your own background knowledge to answer the statements below by circling true (T) or false (F).

As you read "Chapter 1: Stone Age People" from the book *Ancient Agriculture: From Foraging to Farming*, circle true or false to indicate what the author thinks about the statement. Take notes on a separate paper or use sticky notes to keep track of the pages where you find evidence for what the author thinks about each statement. **Remember that the author may discuss each statement in different places in the chapter.**

	<u>You</u>		<u>Author</u>	
1. Stone Age people were scavengers and obtained food any way that they could.	T	F	T	F
2. Stone Age people did not eat sweets.	T	F	T	F
3. Stone Age people refrigerated their food.	T	F	T	F
4. Stone Age people ate mostly meat.	T	F	T	F
5. Inventions did not take place in Stone Age times.	T	F	T	F
6. Stone Age people changed to farmers when they domesticated plants and animals.	T	F	T	F
7. Stone Age people were healthier than we are today.	T	F	T	F
8. Archeologists think that dogs were the first domesticated animals.	T	F	T	F

Based on what you've learned, write one complete sentence describing how agriculture influenced the development of ancient civilizations.

## Answer Sheet

(Possible page numbers for information have been given)

### Stone Age Hunter-Gatherers

Before you read about Stone Age hunters and gatherers, use your own background knowledge to answer the statements below by circling true (T) or false (F).

As you read “Chapter 1: Stone Age People” from the book *Ancient Agriculture: From Foraging to Farming*, circle true or false to indicate what the author thinks about the statement. Take notes on a separate paper or use sticky notes to keep track of the pages where you find evidence for what the author thinks about each statement. **Remember that the author may discuss each statement in different places in the chapter.**

	<u>You</u>		<u>Author</u>	
1. Stone Age people were scavengers and obtained food any way that they could. p. 1, 13, 14, 19	T	F	<input checked="" type="radio"/> T	F
2. Stone Age people did not eat sweets. p. 18, 19	T	F	T	<input checked="" type="radio"/> F
3. Stone Age people refrigerated their food. p. 17	T	F	<input checked="" type="radio"/> T	F
4. Stone Age people ate mostly meat. p. 13, 14, 18	T	F	T	<input checked="" type="radio"/> F
5. Inventions did not take place in Stone Age times. p. 15, 16, 17	T	F	T	<input checked="" type="radio"/> F
6. Stone Age people changed to farmers when they domesticated plants and animals. p. 19, 20	T	F	<input checked="" type="radio"/> T	F
7. Stone Age people were healthier than we are today. p. 18, 19, 20	T	F	<input checked="" type="radio"/> T	F
8. Archeologists think that dogs were the first domesticated animals. p. 20, 22	T	F	<input checked="" type="radio"/> T	F

Based on what you’ve learned, write one complete sentence describing how agriculture influenced the development of ancient civilizations.
