Food Waste Tracker	6	8.5" × 11"	Single-sided
Game Board	1	11" × 17"	Single-sided
Game Cards	16	8.5" × 11"	Double-sided

How to Print the Game Cards

Tip: Print a test batch (e.g., pages 1–2) first to verify alignment before printing all 16.

Step 1: Configure Settings

Refer to the print settings window above for setup:

1. Open your PDF print dialogue window.
2. Select **Orientation → Landscape**.
3. Select **Page Sizing & Handling → Size:**
    - Set **Actual**
4. Check **Print on both sides of paper (duplex)**:
    - Select **Flip on short edge** (recommended for proper card orientation).

Step 2: Print & Check Alignment

- Print the test batch (pages 1-2).
- Confirm the front and back sides line up correctly.
- ***Note:*** *If the backs are upside down, change your setting to* ***Flip on long edge*** *and re-test.*

Step 3: Print Full Set

- Once alignment is verified, print the full document run.

Cutting Guidelines

- Use the card backs as your cut lines.
- Use a paper cutter or rotary trimmer rather than scissors for clean, straight edges.
