

Urban Agriculture Action Plan

Name: _____

PROBLEM: A city would like to do one thing to make urban agriculture more productive.

DECISION: More compost sites would provide more rich soil to grow good quality and affordable fresh vegetables and fruits in cities.

GROUP TASK: How could you take action by sharing your decision with others?

WHO? Check the group of people you would like to share your decision with (audience):

other students in our school neighbors in our community

local organizations elected officials

other: _____

WHAT? Circle the way you would take action to share your decision:

create a web page make & hang up posters make a phone call

present at a meeting write a letter or email

other: _____

WHY? Explain the reason for your choices of a group and action for sharing this decision.

What do you think would be the most difficult part of taking action?

What would be the best part of taking action?
