

Guiding Questions - Minnesota

Name:

Hour:

Date:

Use the space below to record notes and thoughts to share with our class.

1. Where is the food/crop grown?

2. Does it require a specific climate or biome?

3. How long does it take to grow or reach maturity?

4. How does it grow (water, soil, etc.) and how is it harvested?

5. If it is an animal, what does it eat and what kind of shelter does it require?
