tomato

carrot

corn

papaya

apple

summer squash

cotton

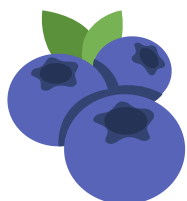

strawberry

broccoli

potato

blueberry

orange

banana

soybean

GMO OR NO?

Circle all of the GMOs

What crops have GMO varieties?

Here's how to remember!

C₃

Corn

Canola

Cotton

A₂

Apple

Alfalfa

P₂

Potato

Papaya

S₃

Soybeans

Sugar Beets

Summer Squash

WHAT IS A GMOs PURPOSE?

A GMOs number one purpose is to solve a problem. Each crop faces different challenges and are engineered to overcome them. Some of the challenges genetic engineering can solve include diseases, insects, drought, and weeds.
