

ID the Pest

EAB Life Cycle

A closer look

- Color, label and cut out the life cycle cards.
 - Work as a team. Hold up the card that answers each question.
1. Which insect stage creates the D-shaped hole in the bark?
 2. Which stage is active in the fall?
 3. Put the cards in order from the beginning of the cycle.
 4. Ask two more questions that can use the life-cycle cards for the answers.
