

EVERYTHING IS ROOTED IN THE SOIL!

Soil helps provide your food, clothing and shelter!

Discover these connections by drawing a line from the soil in Level 1. Then, connect the plant to an item in Level 2 to which it best relates. Finally, find the two items in Level 2 that connect to items in Level 3.

Example: **Soil** helps **trees** grow that can be made into **lumber** that can build our houses to provide shelter. Trace the dotted line provided.

LEVEL 3

MILK

HAMBURGER & LEATHER

LEVEL 2

PEPPERONI & LIPSTICK

LUMBER

DAIRY COW

CLOTHING & MONEY

BEEF CATTLE

BREAD

ETHANOL

LEVEL 1

TREES

CHILE

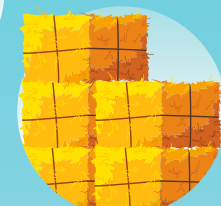

RANGE GRASS

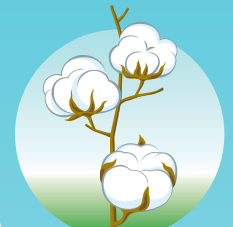

CORN

WHEAT

HAY

COTTON

It's alive!
1 teaspoon of healthy soil is home to thousands, or even millions, of living things!

SOIL

Agriculture is growing crop plants and raising livestock animals.
