

Pre-K's Awesome Ninja Ice Cream

Ingredients:

2 cups of whole milk

1 $\frac{1}{2}$ cups of heavy whipping cream

$\frac{3}{4}$ cups of sugar

1 tablespoon of imitation vanilla

1 teaspoon of neon green gel food coloring

$\frac{1}{2}$ pound of pizza gummies (tropical fruit flavored)

Put the metal canister from the ice cream machine in the freezer to get cold for a few hours.

In the bowl mix the milk, cream, sugar, vanilla, and food coloring. Mix well with a whisk.

Put the mix in the metal canister from the ice cream machine that is already cold. Place the canister in the machine.

Add ice around the canister and then rock salt around the canister.

Turn on the machine.

When the ice cream is ready, about 1 hour later, scoop it out of the canister and into a bowl. Gently fold in the pizza gummies.

Place the bowl in the freezer to finish getting firm. In one hour you can scoop and enjoy!
