

SUPER COOL COLORING

3D Augmented Reality Coloring with Quiver

Experience the magic of learning with the [Quiver App!](#)

Each colored page **springs to life** in its own unique way, fostering a sense of ownership and pride in young artists. With immersive, educational, and inspiring experiences, Quiver is an **essential** tool for classrooms and homes alike, revolutionizing **skill development** and **knowledge retention**.

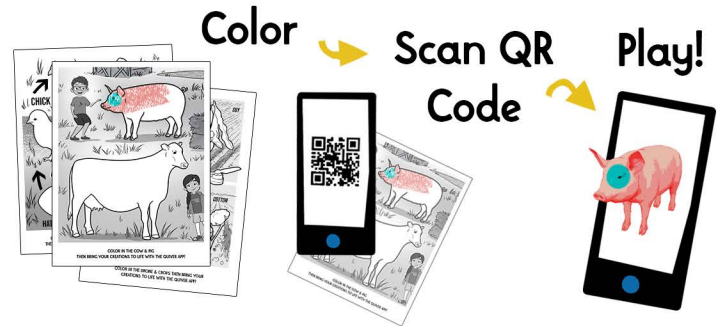

Instructions

- 1 Get creative and color the picture!
- 2 Download the free Quiver App from Google Play or the App Store.
- 3 Open the Quiver app & tap the "Camera" button.
- 4 Scan the QR code below & hit the "Launch" button.
- 5 Hold the phone above your coloring to watch your creations burst to life!
- 6 Enjoy interactive tap animations & engaging UI button interactions.
- 7 Play a game or test your knowledge with quizzes!

WOW!
