

Chemistry and Agriculture

Presented by Tammy Will, High School Chemistry, Physical Science, 8th grade Science, & STEM teacher at Morrison High School & 2020 AITC Teacher of the Year

**Thursday July 30 Session 1 PM 1:30-2:20
HIGH SCHOOL/MIDDLE SCHOOL FOCUS**

Chemistry and Agriculture: Come learn how to apply agriculture in your chemistry class! There are so many chemistry concepts that can be explored when talking about soil science in our world. Most just think about soil in general when talking about agriculture but there are many considerations to take into account when farming. We will use different strategies throughout the lesson as well as hands-on components that your students will love!
