

# **Eggs-cellent Eggs**

**Presented by Michelle Spurgin, 1st grade teacher at Mark Twain Elementary at Duncan Schools, and Sharon Banks, 3rd grade teacher at Mark Twain Elementary at Duncan Schools**

**Tuesday July 21 PM Session 3 3:30-4:20  
ELEMENTARY FOCUS**

**Eggs-cellent Eggs:** Are eggs all they are cracked up to be? From a home for a developing animal to a delicious treat to eat, they are "egg-stra-special". Eggs can be fascinating to use with all academic areas. For instance, eggs come in all shapes, sizes, and colors making them great for various math standards. There are also several books on eggs that can be read and used as reference sources for writing a report on the various animals that lay eggs. Discovering how people all over the globe consider certain kinds of eggs a delicacy allows for social studies integration. Of course, the obvious academic area to explore with eggs is science. We will help teachers share the wonders and benefits of the egg with their students.
