

Hamburger Plants

Presented by Shelley Mitchell, Horticulture Youth Specialist at Oklahoma State University

Tuesday July 21 Session 2 PM 2:30-3:20

and

Thursday July 30 Session 2 AM 10:00-10:50

ELEMENTARY FOCUS

Hamburger Plants: Participants will learn where all of the ingredients in a cheeseburger come from, and that all of them come from plants originally (in the diets of cattle, etc.). The topic is plants (and ag literacy). Teachers will make a hamburger they can use as a model for their students to make or draw or paint while students learn where their food comes from.
