**DID YOU KNOW?**

**Facts About Bovine**

- **Bovine** is the scientific name for beef or dairy cattle.
- A 1,000 pound steer will provide about 430 pounds of edible meat.
- Cattle move their jaws about 40,000 times a day, chewing cud or grass about 40 times a minute.
- The beef industry generates more income than any other agricultural enterprise in our state. In 2016, Oklahoma's cattle and calf population was 4.85 million.

- **Milk** takes only 48 hours to journey from the farm to the store.
- **Holstein cows** produce the most milk. An average dairy cow will produce 6.8 gallons of milk per day. That's more than 2,476 gallons a year.
- Each year, Americans consume 25 billion hamburgers.
- Milk was named Oklahoma's official state beverage in 2002.
- A 1,000 pound steer will provide about 430 pounds of edible meat.

**Additional Information**
