

# Pinecone Trees

Recognize that Virginia Pines are a variety grown in the Appalachian and Piedmont regions of the southeastern US.

## Directions

1. Shake glitter into plastic bag.
2. Drizzle glue all over pinecone.
3. Place pinecone in bag and shake until covered with glitter.
4. Let dry, then glue cotton balls to bottom to act as snowy base.

Variation: Glue individual embellishments to the tips of the pine cone

## Facts to share about pinecones if time allows:

*The male cones produce pollen which blows through the air. The female cones house the seed which takes two years to mature.*

## Supplies

- Pinecones
- School glue
- Assorted colors of glitter
- Gallon-size baggies
- Cotton balls
