

Seed Journal

Recognize that recording observations with words or drawings helps scientists during experiments, or farmers growing crops. This journal can serve as an extension to the Seed Buddy activity or any germination activity.

Directions

1. Provide each child with a packet of seeds. This activity works best when seed packets are paper rather than see through plastic.
2. Cut open the top of packet. Remove seeds.
3. Cut open the bottom and right side of packet. The open packet will form a book cover.
4. Provide each student with a 8 ½ by 11 piece of paper.
5. Fold paper in half horizontally. Fold in half vertically. Open the paper and cut on the folds.
6. Stack the four pieces of paper and fold in half to form a book.
7. Insert book pages into seed packet book cover. Staple in the center.
8. Use book to record the steps of the germination process.

Supplies

- Seed packets
- Paper
- Scissors
- Stapler
- Markers
